THIS TUESDAY

LAST TUESDAY

Repeat performer Anne Marie Piersol gave us the scary details of "999" or bump key can be any key that fits a particular pin tumbler lock and that has been modified so that all of its cuts (or grooves) are made to the deepest allowable position as defined by each manufacturer. The term "fit" means that the key will enter the keyway (the front of the lock) but will not unlock it. For example, assume all of the locks in a particular apartment complex are produced by the same manufacturer and have the same keyway.

The key for 101 can enter the lock of apartment 207 (or any other apartment) but will only unlock the apartment for which it was cut (i.e., apartment 101). Any key cut for any apartment in this example could be modified to act as a bump key and then could be used to open any other apartment within the complex (or potentially any other complexes where the same manufacturer's locks were installed).

The term "bumping" refers to the process of forcing the key to interact with the pin tumblers by "bumping" or rapping it with a plastic mallet while it is inserted into the lock. This process entails hitting the head of the key, causing it to rapidly move forward. When the key is struck correctly, each of the bottom pins is "bumped" upward for a brief instant, thus allowing the lock to be opened.

We received a thank you note from Emperor Students of the Month.

Sue Matchett and Peggy Sue Miller were again guest.

If you want to know all the honors the Key Club won at the Convention, ask Mike Miller.

STUDENTS OF THE MONTH

Longden teachers Mr. Bruce Bremer and Miss Heather Carlson brought 6 terrific students to be honored. Count um...6!

Crystal Garcia said that school is great for lunch, math, and science. The best thing that ever happened to Crystal was having lunch with us and being honored.

Henry Yu enjoys reading, field trips, the kind teachers, and social studies. Henry would like to change his report card, build a ice cream limo, get good grades, get better in social studies, and do a lot better in the 7th grade.

Kathy Gomez enjoys collecting bottle caps. Kathy said the best things about school are the teachers, P.E., and lunch. Personal goals are to get straight A's, make friends, and to get good at soccer.

Thien Nguyen has 9 brothers and sisters ages 2,3,5,6,7,9,16,17,19. Thien said the best things about school are math, social studies, and the kind teachers.

Jennifer Abercrombie plays the clarinet and likes collecting NeoPets (whatever that is). Best things about school are recess, art, and the library. Goals are to bring her lizards to life, improve her handwriting, get better in math, and improve her social skills.

Zeke Ortiz enjoys playing video games on his Xbox 360. The best things about school are recess, lunch, and free time. Zeke's personal goals are to improve his communication, skateboarding skills, and to improve his reading.
