## THIS TUESDAY

Craig Chyrchel will speak on the Civil War in Southern California. This should be very interesting.

## LAST TUESDAY

Denny's must have thought that a State election was more important than our own election in our meeting room. We made do 1 hour before our meeting at the rear of the main restaurant. Visitors included a recovered Lisa Montesanti, Marie Leonard, and Franca Scorsone who just wanted to hear her brother's talk. We also had someone there wanting us to join the new Rotary Club in Temple City. Sounds like Mike Miller put him on to us.

Our own Dan Arrighi is the Water Resources Manager for the San Gabriel Valley Water Company. Besides being a hard-working Kiwanis member he is a former TC Commissioner, Councilmember, and Mayor.

Every time Dan speaks to us about water the news gets worse. Governor Jerry Brown declared a statewide drought on January 17. There is a severe shortage in our State Water Project supplies. He has called for a voluntary 20% reduction in water use. SGVWC and other local water suppliers also support the Governor's Conservation request. All Californians need to conserve water and use it wisely. Dan stressed the word "wisely" and not "less". I made the mistake of telling Dan that my water bills have gone up like crazy. He told me just wait!!

## NEWS and OPPORTUNITIES

Mike Miller is at Arcadia Methodist Hospital hopefully in a room that he has never been before. He had suffered a previous heart attack and they performed an angioplasty procedure. He still has the infection in his knee. I am sure he would welcome a call or visit in Room 562.

We received a thank you note from the three Robotic students from St. Lukes School. After 90 minutes Sue Matchett finally gave our club scholarship awards to deserving Key Clubbers Betty Wang and Clair Chow at the Senior Awards on Wednesday morning at 7:15.

Congratulations to Rich and Pat Wenzel having announced the engagement of their daughter Kim.

We were supposed to have an election of officers last Tuesday. Don't anyone tell Lt. Gov. Ernie Arnold. We will have elections of officers for the 2014-2015 Kiwanis year on Tuesday, June 10. The slate of officers are President Matt Smith. Vice Pres. Steve Montesanti, Secretary Ron Dorazio, Treasurer Jim Robuck, and IPP Sue Matchett. Directors are Bill Hohl, Jerry Jambazian, Mike Lepore, Tom McIntee, Mike Miller, Bob Rodenbucher, and Rich Wenzel.

## STUDENTS OF THE MONTH

We honored **SIX** outstanding students from Oak Avenue Intermediate School. Accompanying the students were teachers Mrs. Marta Bourgili and Mrs. Holly Tran.

**Joseph** is 14 years old and has a younger sister. He enjoys Boy Scouts, magic, and making his own tea. Joseph said, "The best things about Oak Avenue are the really nice and dedicated staff, the wonderful environment, and friendly students." The best thing that ever happened was receiving the Maverick Nicest Human Being Award. If he could change one thing it would be to remove the walls that separate people. Personal goals are to build a library so you could do more things than you could imagine, achieve Eagle Scout, become a Forensic Scientist, and be able to speak to large audiences.

**Justin** is 14 years old and has an older brother. He enjoys playing baseball and football, tenor saxophone, and watching the L.A. Kings. Justin said, "The best things about Oak Avenue are the administrators, the music program, and the dances." The best thing that ever happened was going to the 2014 BCS National Championship game. If he could change one thing it would be to have his grandparents live closer than New York. Personal goals are to build a mansion for his family, play varsity football and baseball, maintain a 4.0 GPA throughout High School, and be accepted to a Division 1 University.

**Carol Anne** is 13 years old and has two older sisters. She enjoys dancing, ballet and tap, playing volleyball, shopping, and sewing. Carol Anne said, "The best things about Oak Avenue are the collaboration between teachers and students, the naturally welcoming atmosphere of the students, and the various opportunities." The best thing that ever happened was in the first grade being selected to the Camellia Festival as a Princess. If she could change one thing it would be to build an auditorium at the High School. Personal goals are to build a machine that cures all diseases, get into a good college, maintain good GPA and SAT scores, and pursue a career in performing arts.

**Kayla** is 13 years old and in Mr. Loomis' class. She has an older brother and enjoys being outdoors, playing tennis, basketball, volleyball, and trying new things. Kayla said, "The best things about Oak Avenue are the caring and dedicated staff, the safe and friendly environment, and the character program." The best thing that ever happened was making a 6th grade promotion speech at Emperor School. If she could change one thing it would be to end violence in school by promoting positive relationships. Personal goals are to build a machine to cure all diseases, go to a prestigious college, work hard to become a doctor, study hard and get good grades.

**Sheri** is 14 years old and in Ms. Reina's class. She has an older brother and enjoys sketching, reading, and playing the piano. Sheri said, "The best things about Oak Avenue are the amazing teachers and staff, exciting activities, and my great friends." The best thing that ever happened was meeting her grandfather for the first time. If she could change one thing it would be to save the rainforests. Personal goals are to build a machine to cure cancer, achieve straight A's, become a better piano player, and attend a good college.

**Sean** is 14 years old and in Mrs. Gould's class. He has an older brother and enjoys reading, swimming, fencing, art, running, writing, literature, and architecture. Sean said, "The best things about Oak Avenue are the amazing and kind teachers, friendly students that are easy to socialize with, and the clean campus with good morals and virtues." The best thing that ever happened was receiving the High Twelve Award in the 6th grade. If he could change one thing it would be to live in a world free of toxins. Personal goals are to build a device that produces antidotes that cures any disease, obtain a 4.0 for his entire academic career, to be accepted into a prestigious university, and to be successful in life with a strong family.
